A MILLIMAN GLOBAL FIRM

Milliman USA
Consultants and Actuaries

MG-ALFA™

1301 Fifth Avenue
Suite 3800
Seattle, Washington 98101-2605
Website: www.milliman.com
Contact: Brian Reid
Phone: (860) 535-0573
Email: brian.reid@milliman.com

Milliman will be exhibiting MG-ALFA, the life insurance pricing and projection system developed, used, and supported by Milliman. System capabilities include pricing, planning and forecasting, CFT, ALM, stochastic modeling, embedded value analysis, actual-to-expected studies, and valuation. The system supports life, health and annuities, as well as a full range of asset classes. MG-ALFA's advantages include speed, flexibility, ease of use, auditability, a simplified upgrade process, and an underlying accounting structure. Beyond its advantages, MG-ALFA is differentiated by a higher level of actuarial support. Stop by for more information or a brief demonstration.

MG-Triton™

1301 Fifth Avenue
Suite 3800
Seattle, Washington 98101-2605
Website: www.milliman.com
Contact: Mark S. Mahany
Phone: (860) 687-0170
Email: mark.Mahany@milliman.com

Milliman will be exhibiting our MG-Triton valuation systems, which calculate statutory, tax, alternative minimum and GAAP reserves (i.e., DAC asset and unearned revenue reserves) for Interest-Sensitive Life (Universal Life, Variable Universal Life and Interest-Sensitive Whole Life), Annuity (Deferred, Immediate, Equity-Indexed and Structured Settlements), Traditional (Term and Whole Life, participating and non participating) and Health (Disability Income, Long-Term Care and Medicare Supplement), base contracts and riders. The systems also come complete with a projection model allowing prospective or retrospective analysis. All current regulations are supported, including Guideline 39, AXXX, and the SOP for Guaranteed Minimum Death Benefits (GMDBs). MG-

Triton's Import/Export module dramatically reduces system implementation or conversion time, allowing companies to leverage the most complete, auditable production valuation systems in the shortest period possible.

Bob Keating
Email: gbusse@polysystems.com
bkeating@polysystems.com

PolySystems is a leading international provider of valuation and financial analysis software. Our PC based systems compute reserves for traditional, ISWL, UL, VUL, DI, health, deferred annuities (FPDA, SPDA & EIA) and income pay products. PolySystems' software supports statutory, tax, GAAP, minimum reserves, gross premium reserves, embedded value, XXX, 147, and Guidelines 33, 34, and 35. The software also values single life, joint life and last-to-die products.

PolySystems offers accurate FAS 97, FAS 133 and FAS 120 reporting Systems for computing benefit reserves, tracking margins, projecting margins, and amortizing DAC. Fully developed modules for experience studies and source of earning analysis, and reinsurance from ceding companies are also available.

PolySystems also provides the Asset Delphi System for cash flow testing and asset liability management work. The Asset Delphi System integrates the liability portions of PolySystems' financial reporting software with capabilities that reflect actual assets and economic scenario analysis. It is designed to support deterministic scenarios and stochastic processing.
